

InDiBasin

Our electrical lift takes your wash basin to the next level

InDiBasin allows you to adjust the basin height to suit your needs. The lift is wall-mounted and you can easily adjust the height of the basin with the remote control.

The lift is available in two widths in order to fit most bathrooms. InDiBasin is sold separately but can be customised with a wide assortment of accessories, such as sinks and faucets, or a changing table.

Plug & Play wiring makes IndiBasin easy to install. The lift is IP66 rated for wet environments.

Choose from a wide range of accessories
